INDEX TO VOLUME 41 OF MAYO CLINIC PROCEEDINGS

1966

Abdomen: complication of total gastrectomy, case, 624
duplications of small intestine in children; Mayo Clinic experience and review of literature, 246
Abdominal distress and ascites of seven years' duration, case, 40
Abdominal pain and fever, case, 186
Abdominal pain, intractable, case, 257
Abstracts: 55, 133, 202, 276, 354, 418, 499, 568, 638, 704, 855
Abu-Jamra, F. N., 1
Aching legs: present-day indications for surgical treatment of varicose veins, 515
Acrodermatitis enteropathica: report of patient responding to combined therapy with human milk and diiodohydroxyquin, 334
ACTH: pathogenesis of Cushing's disease, 29
Actinomycin D: chemotherapy of malignant lesions unique in children, 361
Address, annual convocation of Mayo Graduate School of Medicine: 103, 505
Adenoma, islet cell, in hypoglycemia, 390
Adenomatous polyps: routine proctoscopic examination, second look, 368
Adrenal cortex: pathogenesis of Cushing's disease, 29
Adson, M. A., 257, 549, 599
Aganglionic megacolon, rectal myectomy for, 289
Air detector and safety control for high-pressure flushing system, 668
Aldrete, J. S., 399, 839
Amyloidosis: coma and oliguria, case, 483
Anemia: congenital nonspherocytic hemolytic disease secondary to glucose-6-phosphate dehydrogenase deficiency, cases, 316
long-term intermittent hemodialysis for chronic renal failure, 73
Anesthesia, halothane or diethyl ether, hepatic function tests; postoperative changes with, 599
Aneurysm, renal: perirenal hematoma secondary to intrarenal microaneurysms of periarteritis nodosa demonstrated radiographically, 169
Angiotensin: vasoactive polypeptides of surgical significance, 399
Anomalies: duplications of small intestine in children; Mayo Clinic experience and review of literature, 246
Anomalies, genital, associated with solitary kidney, 538
Aortic or mitral valve, heart size after isolated replacement of, 217
Apparatus: air detector and safety control for high-pressure flushing system, 668
Mayo Clinic whole-body counter, 18
metallic cannula as aid to cystic-duct operative cholangiography, 839
occlusion of jejunum for intestinal perfusion in man, 224
Arterial and venous blood of bone in normal puppies and in puppies with arteriovenous fistula, measurement of oxygen saturation in, 95
Arteriography, renal: perirenal hematoma secondary to intrarenal microaneurysms of periarteritis nodosa demonstrated radiographically, 169
Arteriovenous fistula, measurement of oxygen saturation in arterial and venous blood of bone in normal puppies and in puppies with, 95
Artery, middle cerebral, retro-orbital, extradural approach for occlusion of, 159
Ascites of seven years' duration and abdominal distress, case, 40
Atrioventricular canal, persistent common, with special reference to atrioventricular valves, anatomic observations on complete form of, 296
Atrophy, peroneal muscular, histologic measurements and fine structure of biopsied sural nerve in, 742
Atrophy, peroneal muscular, segmental demyelinization in; nerve fibers teased from sural nerve biopsy specimens, 775

Bacterial meningitis. IV. Infections caused by multiple organisms, 179
Beahrs, O. H., 375
Becton, J. L., 242
Bernatz, P. E., 399
Beta-propiolactone as used in sterilization of homografts not carcinogenic for mice, 24
Biopsy: recent studies on neuromuscular disease, 713-808
Bladder: vesicouterine fistula, 150
Bleeding: massive hemorrhage from colonic diverticulitis, 549
Blood: acute leukemia, 383
congenital nonspherocytic hemolytic disease secondary to glucose-6-phosphate dehydrogenase deficiency, cases, 316
headache and paresis, case, 114
heat stroke, 470
hereditary spherocytosis in 100 children, 821
in vitro blood cell uptake of radioactive norepinephrine; experience in pheochromocytoma and idiopathic orthostatic hypotension, 649
long-term intermittent hemodialysis for chronic renal failure, 73
vasoactive polypeptides of surgical significance, 399
Blood, arterial and venous, of bone in normal puppies and in puppies with arteriovenous fistula, measurement of oxygen saturation in, 95
Blood cell uptake of radioactive norepinephrine, in vitro; experience in pheochromocytoma and idiopathic orthostatic hypotension, 649
Blood flow of bone in growing and mature dogs, estimation of O_2 consumption and CO_2 production, 831
Blood pressure: experience with guanoxan in treatment of hypertension, 577
Body image: psychiatric considerations in cosmetic surgery, 608
Body temperature: heat stroke, 470
Bone: measurements of osteoid tissue in primary hyperparathyroidism, 836
morphologic evidence of osteomalacia in parathyroidectomized dog, 663
Bone in growing and mature dogs, estimation of O_2 consumption and CO_2 production and blood flow of, 831
Bone in normal puppies and in puppies with arteriovenous fistula, measurement of oxygen saturation in arterial and venous blood of, 95
Book notices: 215

Boucher, R., 433
Bowel: abdominal distress and ascites of seven years' duration, case, 40
occlusion of jejunum for intestinal perfusion in man, 224
routine proctoscopic examination, second look, 368
Boyce, Daniel, 836
Brain: bacterial meningitis; infections caused by multiple organisms, 179
experimental cerebral infarctions; retro-orbital, extradural approach for occluding middle cerebral artery, 159
headache and paresis, case, 114
history of numbering of cranial nerves, 453
Brown, A. L., Jr., 40
Burbank, M. K., 577
Burgert, E. O., Jr., 316, 361, 821
Burkhart, J. M., 663
Burns, thermal, primary treatment of, 1

Canal, persistent common atrioventricular, with special reference to atrioventricular valves, anatomic observations on complete form of, 296
Cancer of larynx, choice of treatment in, 309
Cannula, metallic, as aid to cystic-duct operative cholangiography, 839
Carbon dioxide production and blood flow and O_2 consumption of bone in growing and mature dogs, estimation of, 831
Carcinoma: pathogenesis of Cushing's disease, 29
Carcinoma of head of pancreas: intractable abdominal pain, case, 257
Carcinoma of rectum and sigmoid: routine proctoscopic examination, second look, 368
Cardiac anomalies: anatomic observations on complete form of persistent common atrioventricular canal with special reference to atrioventricular valves, 296
Cardiac catheterization: air detector and safety control for high-pressure flushing system, 668
Cardiomegaly: heart size after isolated replacement of mitral or aortic valve, 217
Carpal tunnel syndrome, long-term results of operation for, 232
Cartilage: osteochondral fracture of medial femoral condyle, case, 242
Centrifuge, human, in treatment of retinal detachment, 145
Cerebral hemorrhage: headache and paresis, case, 114
Cerebral infarction, experimental; retro-orbital, extradural approach for occluding middle cerebral artery, 159
Cerebrovascular disease: experimental cerebral infarction; retro-orbital, extradural approach for occluding middle cerebral artery, 159
Chaapel, D. W., 585
Chaves-Carballo, Enrique, 843
Chemotherapy of malignant lesions unique in children, 361
Children, 100, hereditary spherocytosis in, 821
Cholangiography, cystic-duct operative metallic cannula as aid to, 839
Cleft palate: evaluation of velopharyngeal competence after primary repair of, 524
Clinical reviews (program): 69, 141
Clinicopathologic conferences: 40, 114, 186, 257, 483, 624
Cloutier, M. D., 316
Code, C. F., 145
Colby, M. Y., Jr., 309
Colon: rectal myectomy for aganglionic megacolon, 289
Colonic diverticulitis, massive hemorrhage from, 549
Colton, R. S., 326
Coma and oliguria, case, 483
Computerized radioisotope-scan-data filter based on system response to point source, 585
Condyle, osteochondral fracture of medial femoral, case, 242
Congenital nonspherocytic hemolytic disease secondary to glucose-6-phosphate dehydrogenase deficiency, cases, 316
Congenital unilateral renal agenesis: genital anomalies associated with solitary kidney, 538
Convocation address, annual, of Mayo Graduate School of Medicine: 103, 505
Cook, Alistair, 103
Cook, E. N., 150, 536
Coronary vascular accident: headache and paresis, case, 114
Corticosteroid-induced thyrotoxic and electron microscopic observations in myopathies, 785
Cortisol: pathogenesis of Cushing's disease, 29
Cosmetic surgery, psychiatric considerations in, 608
Counter, whole-body, Mayo Clinic, 18
Cram, D. L., 677
Cranial nerves, history of numbering of, 453
Cseuz, K. A., 232
CTS (carpal tunnel syndrome), long-term results of operation for, 232
Current practices: 383
Cushing's disease, pathogenesis of, 29
Cutaneous lesions: dermatologic disorders associated with diabetes mellitus, 689
unusual variations of lichen planus, 677
Cutaneous lesions, diffuse nodular, hoarseness, peripheral neuropathy and, 342; correction, 432
Cystic-duct operative cholangiography, metallic cannula as aid to, 839

Dale, A. J. D., 342
Darley, F. L., 524
Dawson, Brian, 599
Decompression of median nerve, surgical: long-term results of operation for carpal tunnel syndrome, 232
Dehydrogenase deficiency, glucose-6-phosphate, congenital nonspherocytic hemolytic disease secondary to, cases, 316
Demyelinization, segmental, in peroneal muscular atrophy; nerve fibers teased from sural nerve biopsy specimens, 775
Dermatologic clinic: 334, 677
Dermatologic disorders associated with diabetes mellitus, 689
Devine, K. D., 309
DeWeerd, J. H., 169
Diabetes mellitus associated with dermatologic disorders, 689
Diabetes mellitus, nonhereditary (secondary), 560
Diagnostic clinic: 390
Dialysis: long-term intermittent hemodialysis for chronic renal failure, 73
Didier, E. P., 399
Diethyl ether or halothane anesthesia, postoperative changes with, hepatic function tests, 599
Diiodohydroxyquin and human milk, report of patient with acrodermatitis enteropathica responding to combined therapy with, 334
Dinapoli, R. P., 809
Disease, Cushing's, pathogenesis of, 29
Disease, neuromuscular, recent studies on, 713-808
Distress, abdominal, and ascites of seven years' duration, case, 40
Diverticulitis, colonic, massive hemorrhage from, 549
Dockerty, M. B., 368, 549, 599, 624
Duplications of small intestine in children; Mayo Clinic experience and review of literature, 246
Dyck, P. J., 342, 742, 775, 778

Electromyography: late-onset rod myopathy (a new syndrome?); light and electron microscopic observations, cases, 713
long-term results of operation for carpal tunnel syndrome, 232
Electron microscopy: recent studies on neuromuscular disease, 713-808
Emotions: psychiatric considerations in cosmetic surgery, 608
Endocrine disease: pathogenesis of Cushing's disease, 29
Endocrine failure: hypoglycemia, 390
Endocrine glands: nonhereditary (secondary) diabetes mellitus, 560
Engel, A. G., 713, 785, 797
Enzymes: congenital nonspherocytic hemolytic disease secondary to glucose-6-phosphate dehydrogenase deficiency, cases, 316
Erythematosus: unusual variations of lichen planus, 677
Erythrocytes: congenital nonspherocytic hemolytic disease secondary to glucose-6-phosphate dehydrogenase deficiency, cases, 316
hereditary spherocytosis in 100 children, 821
Espinosa, R. E., 179
Eye: human centrifuge in treatment of retinal detachment, 145

Fairbairn, J. F., II, 186, 577
Farrow, G. M., 672
Fascicular biopsy of human peripheral nerve for electrophysiologic and histologic study, method of, 778
Fellows, J. L., 668
Femur: osteochondral fracture of medial femoral condyle, case, 242
Ferguson, R. H., 326
Fever and abdominal pain, case, 186
Fibrous mediastinitis, Riedel's struma associated with, case, 375
Fistula, arteriovenous, measurement of oxygen saturation in arterial and venous blood of bone in normal puppies and in puppies with, 95
Fistula, vesicouterine, 150
Fleisher, G. A., 599
Flushing system, high pressure, air detector and safety control for, 668
Fracture of medial femoral condyle, osteochondral, case, 242
Freeman, F. J., 624
Fullerton, Pamela, 342

Gastrectomy, total, complication of, case, 624
Gastrointestinal tract: duplications of small intestine in children; Mayo Clinic experience and review of literature, 246
occlusion of jejunum for intestinal perfusion in man, 224
Genest, J., 433
Genital anomalies associated with solitary kidney, 538
Genitalia: pediatric gynecology, 462
Glucose-6-phosphate dehydrogenase deficiency, congenital nonspherocytic hemolytic disease secondary to, cases, 316
Goodrich, R. G., 668
Gottschalk, P. G., 470
Gouty and nongouty subjects, uric acid excretion in, 326
Grafts: beta-propiolactone as used in sterilization of homografts not carcinogenic for mice, 24
Grafts, skin: primary treatment of thermal burns, 1
Guanoxan in treatment of hypertension, experience with, 577
Gutrecht, J. A., 775
Gynecology, pediatric, 462

Hache, Lorenzo, 150
Hallenbeck, G. A., 73
Halothane or diethyl ether anesthesia, postoperative changes with; hepatic function tests, 599
Haptoglobin, serum: hypohaptoglobinemia and valvular heart disease; association with hemolysis after insertion of valvular prostheses and in cases in which operation had not been performed, 657
Hartridge, Virginia B., 599
Hashimoto's thyroiditis (lymphocytic), review of literature and report of case with Ullrich-Turner syndrome in male, 843
Hayles, A. B., 843
Hazelrig, C. G., 649
Headache: fever and abdominal pain, case, 186
Headache and paresis, case, 114
Health and specialist of university, 505
Heart: anatomic observations on complete form of persistent common atrioventricular canal with special reference to atrioventricular valves, 296
Heart disease, hypohaptoglobinemia and valvular; association with hemolysis after insertion of valvular prostheses and in cases in which operation had not been performed, 657
Heart size after isolated replacement of mitral or aortic valve, 217
Heat stroke, 470
Hematoma, perirenal, secondary to intrarenal microaneurysms of periarteritis nodosa demonstrated radiographically, 169
Hematuria: vesicouterine fistula, 150
Hemodialysis, long-term intermittent, for chronic renal failure, 73
Hemodialysis-renal transplantation program, combined, experience with; neurologic aspects, 809
Hemolysis after insertion of valvular prostheses and in cases in which operation had not been performed; association with hypohaptoglobinemia and valvular heart disease, 657
Hemolytic disease, congenital nonspherocytic, secondary to glucose-6-phosphate dehydrogenase deficiency, cases, 316
Hemolytic disease: hereditary spherocytosis in 100 children, 821
Hemorrhage, cerebral: headache and paresis, case, 114
Hemorrhage, massive, from colonic diverticulitis, 549
Hepatic disease: hypoglycemia, 390
Hepatic function tests; postoperative changes with halothane or diethyl ether anesthesia, 599
Hereditary spherocytosis in 100 children, 821
Heredity: nonhereditary (secondary) diabetes mellitus, 560
Hermans, P. E., 657
Hill, J. R., 368
Histologic measurements and fine structure of biopsied sural nerve; normal, and in peroneal muscular atrophy, hypertrophic neuropathy, and congenital sensory neuropathy, 742
History of numbering of cranial nerves, 453
Hoarseness, peripheral neuropathy, and diffuse nodular cutaneous lesions, 342; correction, 432
Holley, K. E., 483
Homografts not carcinogenic for mice, beta-propiolactone as used in sterilization of, 24
Homotransplantation: long-term intermittent hemodialysis for chronic renal failure, 73
Hormone, growth: nonhereditary (secondary) diabetes mellitus, 560
Hormone therapy: vasoactive polypeptides of surgical significance, 399
Hormones: electron microscopic observations in thyrotoxic and corticosteroid-induced myopathies, 785
pathogenesis of Cushing's disease, 29

Horner, B. A., 169
Houston, H. E., 246
Huizenga, K. A., 40
Human centrifuge in treatment of retinal detachment, 145
Human milk and diiodohydroxyquin, report of patient with acrodermatitis enteropathica responding to combined therapy with, 334
Hunder, G. G., 29
Hunt, J. C., 73, 169
Hyperparathyroidism, primary, measurements of osteoid tissue in, 836
Hypertension, experience with guanoxan in treatment of, 577
Hypoglycemia, 390
Hypohaptoglobinemia and valvular heart disease; association with hemolysis after insertion of valvular prostheses and in cases in which operation had not been performed, 657
Hypokalemic, primary, and thyrotoxic periodic paralyses, electron microscopic observations in, 797
Hypotension, idiopathic orthostatic, and pheochromocytoma; in vitro blood cell uptake of radioactive norepinephrine, 649
Hypotensive agents: experience with guanoxan in treatment of hypertension, 577
Hypothalamus: heat stroke, 470
pathogenesis of Cushing's disease, 29

Idiopathic orthostatic hypotension and pheochromocytoma; in vitro blood cell uptake of radioactive norepinephrine, 649
Ileum: duplications of small intestine in children; Mayo Clinic experience and review of literature, 246
Infarction, cerebral: headache and paresis, case, 114
Infarction, experimental cerebral; retro-orbital, extradural approach for occluding middle cerebral artery, 159
Infections caused by multiple organisms, bacterial meningitis, 179
Infections, urinary tract, 33 years' perspective of, 536
Intestinal perfusion in man, occlusion of jejunum for, 224
Intestine, small, in children, duplications of; Mayo Clinic experience and review of literature, 246
Intestines: abdominal distress and ascites of seven years' duration, case, 40
occlusion of jejunum for intestinal perfusion in man, 224
routine proctoscopic examination, second look, 368
Intractable abdominal pain, case, 257
Intussusception: a complication of total gastrectomy, case, 624
Islet cell adenoma: hypoglycemia, 390
Islet cell deficiency: nonhereditary (secondary) diabetes mellitus, 560

Jargon, professional: patient has floor, 103
Jejunum, occlusion of, for intestinal perfusion in man, 224
Johnson, W. J., 73, 809
Jones, R. R., 599
Journalist: patient has floor, 103
Jowsey, Jenifer, 663, 836
Judd, E. S., 549, 839

Karlson, A. G., 24
Kavanaugh, G. J., 577
Kelly, P. J., 95, 831
Keys, T. F., 179
Kidney, solitary, genital anomalies associated with, 538
Kidneys: experience with combined hemodialysis-renal transplantation program; neurologic aspects, 809
long-term intermittent hemodialysis for chronic renal failure, 73
perirenal hematoma secondary to intrarenal microaneurysms of periarteritis nodosa demonstrated radiographically, 169
renal vasodepressor lipid, 433
uric acid excretion in gouty and nongouty subjects, 326
Kincaid, O. W., 169, 217
Kirklin, J. W., 217, 296
Knee: osteochondral fracture of medial femoral condyle, case, 242
Krueger, H. C., 821
Kyle, R. A., 383

Lambert, E. H., 232, 809
Larynx, choice of treatment in cancer of, 309
Layman and medicine: 103
Legs: present-day indications for surgical treatment of varicose veins, 515
Leprosy: hoarseness, peripheral neuropathy, and diffuse nodular cutaneous lesions, 342; correction, 432
Leukemia, acute, 383
Lichen planus, unusual variations of, 677
Lillie, J. C., 309
Linscheid, R. L., 242
Lipid, renal vasodepressor, 433
Lipscomb, P. R., 232
Litin, E. M., 608
Litzow, T. J., 1, 524, 608
Liver: hepatic function tests; postoperative changes with halothane or diethyl ether anesthesia, 599
Lofgren, E. P., 515, 778
Love, J. G., 232
Lymphocytic (Hashimoto's) thyroiditis, review of literature and report of case with; Ullrich-Turner syndrome in male, 843
Lymphocytic leukemia, acute, 383
Lynn, H. B., 246, 289, 538
Lysak, W. R., 342

Maher, F. T., 326
Maldonado, J. E., 383
Mankin, H. T., 657
Martens, T. G., 145
Mayo Clinic whole-body counter, 18
Mayo Graduate School of Medicine, annual convocation address, 103, 505
McGuckin, W. F., 599, 657
Measurements of osteoid tissue in primary hyperparathyroidism, 836
Medial femoral condyle, osteochondral fracture of, case, 242
Mediastinitis, fibrous, Riedel's struma associated with, case, 375
Medical education and research: specialist and health of university, 505
Medicine and layman, 103
Megacolon, aganglionic, rectal myectomy for, 289
Melanoma, primary malignant, with regional metastasis, spontaneous regression of case with photographic documentation, 672
Meningitis, bacterial. IV. Infections caused by multiple organisms, 179
Menstrual problems: pediatric gynecology, 462
6-Mercaptopurine in treatment of acute leukemia, 383
Metabolism: vasoactive polypeptides of surgical significance, 399
Metastasis, regional, spontaneous regression of primary malignant melanoma with, case with photographic documentation, 672
Methotrexate in treatment of acute leukemia, 383

Microaneurysms of periarteritis nodosa, intrarenal, demonstrated radiographically, perirenal hematoma secondary to, 169
Migraine hemiplegia: headache and paresis, case, 114
Milk, human, and diiodohydroxyquin, report of patient with acrodermatitis enteropathica responding to combined therapy with, 334
Mills, S. D., 361
Mitral or aortic valve, heart size after isolated replacement of, 217
Moertel, C. G., 368
Morphologic evidence of osteomalacia in parathyroidectomized dog, 663
Mueller, G. J., 73
Muller, S. A., 677, 689
Muscle: recent studies on neuromuscular disease, 713-808
Mussey, Elizabeth, 462
Myectomy, rectal, for aganglionic megacolon, 289
Myelocytic leukemia, acute, 383
Myopathies, thyrotoxic and corticosteroid-induced electron microscopic observations in, 785
Myopathy, rod (a new syndrome?), late-onset; light and electron microscopic observations, cases, 713
Myopathy, vacuolar: electron microscopic observations in primary hypokalemic and thyrotoxic periodic paralyses, 797

Neault, R. W., 145
Needham, G. M., 179
Nerves, cranial, history of numbering of, 453
Nervous system, central: bacterial meningitis; infections caused by multiple organisms, 179
Neuritis, median thenar: long-term results of operation for carpal tunnel syndrome, 232
Neuroblastoma: chemotherapy of malignant lesions unique in children, 361
Neurologic aspects of experience with combined hemodialysis-renal transplantation program, 809
Neurologic conference: 342
Neuromuscular disease, recent studies on, 713-808
Neuropathy, hypertrophic, and congenital sensory, histologic measurements and fine structure of biopsied sural nerve in, 742
Neuropathy, peripheral, hoarseness, and diffuse nodular cutaneous lesions, 342; correction, 432
Nerve fibers teased from sural nerve biopsy specimens; segmental demyelinization in peroneal muscular atrophy, 775
Nerve, human peripheral, for electrophysiologic and histologic study, method of fascicular biopsy of, 778
Nerve, sural, biopsied, histologic measurements and fine structure of; normal, and in peroneal muscular atrophy, hypertrophic neuropathy, and congenital sensory neuropathy, 742
Nerves: recent studies on neuromuscular disease, 713-808
Nolan, A. C., 145
Norepinephrine, radioactive, in vitro blood cell uptake of: experience in pheochromocytoma and idiopathic orthostatic hypotension, 649
Nowaczynski, W., 433
Nutrient artery and vein: measurement of oxygen saturation in arterial and venous blood of bone in normal puppies and in puppies with arteriovenous fistula, 95

Occlusion of jejunum for intestinal perfusion in man, 224
Occlusion of middle cerebral artery, retro-orbital, extradural approach for, 159
Oliguria and coma, case, 483
Operation for carpal tunnel syndrome, long-term results of, 232
Ophthalmology: human centrifuge in treatment of retinal detachment, 145
Orvis, A. L., 18
Osmundson, P. J., 577
Osteochondral fracture of medial femoral condyle, case, 242
Osteoid tissue in primary hyperparathyroidism, measurements of, 836
Osteomalacia in parathyroidectomized dog, morphologic evidence of, 663
Owen, C. A., Jr., 649, 831
Oxygen consumption and CO_2 production and blood flow of bone in growing and mature dogs, estimation of, 831
Oxygen saturation in arterial and venous blood of bone in normal puppies and in puppies with arteriovenous fistula, measurement of, 95

Pain, abdominal, and fever, case, 186
Pain, intractable abdominal, case, 257
Palate, evaluation of velopharyngeal competence after primary repair of, 524
Pancreas: hypoglycemia, 390
Pancreatitis: intractable abdominal pain, case, 257
Paralyses, primary hypokalemic and thyrotoxic periodic electron microscopic observations in, 797
Parathyroidectomized dog, morphologic evidence of osteomalacia in, 663
Paresis and headache, case, 114
Pasternak, H. S., 831
Patella: osteochondral fracture of medial femoral condyle, case, 242
Pathogenesis of Cushing's disease, 29
Payne, W. S., 672
Pediatric gynecology, 462
Perfusion, in man, intestinal, occlusion of jejunum for, 224
Periarteritis nodosa demonstrated radiographically, perirenal hematoma secondary to intrarenal microaneurysms of, 169
Peripheral nerve, human, for electrophysiologic and histologic study, method of fascicular biopsy of, 778
Peripheral neuropathy, hoarseness, and diffuse nodular cutaneous lesions, 342; correction, 432
Perirenal hematoma secondary to intrarenal microaneurysms of periarteritis nodosa demonstrated radiographically, 169
Peroneal muscular atrophy, histologic measurements and fine structure of biopsied sural nerve in, 742
Peroneal muscular atrophy, segmental demyelinization in; nerve fibers teased from sural nerve biopsy specimens, 775
Pheochromocytoma and idiopathic orthostatic hypotension: in vitro blood cell uptake of radioactive norepinephrine, 649
Phillips, S. F., 224
Photographic documentation of spontaneous regression of primary malignant melanoma with regional metastasis, 672
Photoscan: computerized radioisotope-scan-data filter based on system response to point source, 585
Pituitary gland: pathogenesis of Cushing's disease, 29
Plasma kinins: vasoactive polypeptides of surgical significance, 399
Plastic surgery: primary treatment of thermal burns, 1
Polyarteritis nodosa: fever and abdominal pain, case, 186
Polymicrobic infections: bacterial meningitis; infections caused by multiple organisms, 179

Polypeptides, vasoactive, of surgical significance, 399
Polyps, adenomatous: routine proctoscopic examination, second look, 368
Pratt, J. H., 150
Prednisone in treatment of acute leukemia, 383
Proctoscopic examination, routine; second look, 368
Prostaglandins: renal vasodepressor lipid, 433
Prosthesis, Starr-Edwards ball-valve: heart size after isolated replacement of mitral or aortic valve, 217
Pruritus: dermatologic disorders associated with diabetes mellitus, 689
  unusual variations of lichen planus, 677
Psychiatric considerations in cosmetic surgery, 608
Publications by members of the staff: 213, 431, 645, 710
Pyonephrosis: coma and oliguria, case, 483

Quinoline compounds: acrodermatitis enteropathica; report of patient responding to combined therapy with human milk and diiodohydroxyquin, 334

Radioactive norepinephrine, in vitro blood cell uptake of; experience in pheochromocytoma and idiopathic orthostatic hypotension, 649
Radioisotope-scan-data filter, computerized, based on system response to point source, 585
Rahimtoola, S. H., 668
Randall, R. V., 390, 560
Raphael, H. A., 375
Rastelli, G. C., 217, 296
Rectal myectomy for aganglionic megacolon, 289
Rectum: massive hemorrhage from colonic diverticulitis, 549
  routine proctoscopic examination, second look, 368
Rehabilitation: long-term intermittent hemodialysis for chronic renal failure, 73
Renal agenesis: genital anomalies associated with solitary kidney, 538
Renal disease: perirenal hematoma secondary to intrarenal microaneurysms of periarteritis nodosa demonstrated radiographically, 169
Renal failure, chronic, long-term intermittent hemodialysis for, 73
Renal function: Uric acid excretion in gouty and nongouty subjects, 326
Renal-hemodialysis transplantation program, combined, experience with; neurologic aspects, 809
Renal vasodepressor lipid, 433
Renin-angiotensin system: renal vasodepressor lipid, 433
Restall, C. J., 309
Retinal detachment, use of human centrifuge in treatment of, 145
Rhabdomyosarcoma: chemotherapy of malignant lesions unique in children, 361
Riedel's struma associated with fibrous mediastinitis, case, 375
Ritter, D. G., 668
Rod myopathy (a new syndrome?), late-onset; light and electron microscopic observations, cases, 713
Rucker, C. W., 453

Safety control and air detector for high-pressure flushing system, 668
Sayre, G. P., 114
Scanlon, P. W., 309
Schirger, Alexander, 577, 649
Schnelle, Norbert, 599
Scholz, D. A., 375
Schulze, R. R., 334
Scintiscanning devices: a computerized radioisotope-scan-data filter based on system response to point source, 585
Serum haptoglobin: hypohaptoglobinemia and valvular heart disease; association with hemolysis after insertion of valvular prostheses and in cases in which operation had not been performed, 657
Shepherd, W. G., 505
Sheps, S. G., 399, 577, 649
Shorter, R. G., 257
Siekert, R. G., 114
Skin: dermatologic disorders associated with diabetes mellitus, 689
  hoarseness, peripheral neuropathy, and diffuse nodular cutaneous lesions, 342; correction, 432
  spontaneous regression of primary malignant melanoma with regional metastasis, case with photographic documentation, 672
  unusual variations of lichen planus, 677
Skin grafting: primary treatment of thermal burns, 1
Specialist and health of university, 505
Speech: evaluation of velopharyngeal competence after primary repair of palate, 524
Spherocytes: congenital nonspherocytic hemolytic disease secondary to glucose-6-phosphate dehydrogenase deficiency, cases, 316
Spherocytosis, hereditary, in 100 children, 821
Spine: duplications of small intestine in children; Mayo Clinic experience and review of literature, 246
Sprau, A. C., 585
Stauffer, M. H., 549
Sterilization of homografts not carcinogenic for mice, beta-propiolactone as used in, 24
Steroids: pathogenesis of Cushing's disease, 29
Stomach: complication of total gastrectomy, case, 624
Stroke, heat, 470
Strong, C. G., 433
Struma, Riedel's, associated with fibrous mediastinitis, case, 375
Subject reviews: 29, 246, 399, 470, 560, 608, 689, 842
Summerskill, W. H. J., 224, 599
Sundt, T. M., Jr., 159
Sural nerve, biopsied, histologic measurements and fine structure of; normal, and in peroneal muscular atrophy, hypertrophic neuropathy, and congenital sensory neuropathy, 742
Sural nerve biopsy specimens, nerve fibers teased from; segmental demyelinization in peroneal muscular atrophy, 775
Surgery: abdominal distress and ascites of seven years' duration, case, 40
  anatomic observations on complete form of persistent common atrioventricular canal with special reference to atrioventricular valves, 296
  chemotherapy of malignant lesions unique in children, 361
  choice of treatment in cancer of larynx, 309
  complications of total gastrectomy, case, 624
  duplications of small intestine in children; Mayo Clinic experience and review of literature, 246
  evaluation of velopharyngeal competence after primary repair of palate, 524
  experimental cerebral infarction; retro-orbital, extradural approach for occluding middle cerebral artery, 159
  fever and abdominal pain, case, 186
  genital anomalies associated with solitary kidney, 538
  heart size after isolated replacement of mitral or aortic valve, 217
  hepatic function tests; postoperative changes with halothane or diethyl ether anesthesia, 599
  intractable abdominal pain, case, 257

long-term results of operation for carpal tunnel syndrome, 232
massive hemorrhage from colonic diverticulitis, 549
osteochondral fracture of medial femoral condyle, case, 242
perirenal hematoma secondary to intrarenal microaneurysms of periarteritis nodosa demonstrated radiographically, 169
present-day indications for surgical treatment of varicose veins, 515
rectal myectomy for aganglionic megacolon, 289
Riedel's struma associated with fibrous mediastinitis, case, 375
routine proctoscopic examination, second look, 368
vasoactive polypeptides of surgical significance, 399
vesicouterine fistula, 150
Surgery, cosmetic, psychiatric considerations in, 608
Sweat: heat stroke, 470
Syndrome, carpal tunnel, long-term results of operation for, 232
Syndrome, Ullrich-Turner, in male; review of literature and report of case with lymphocytic (Hashimoto's) thyroiditis, 843

Tauxe, W. N., 18, 585
Taylor, B. W., 608
Thermal burns, primary treatment of, 1
Thermoregulatory mechanism: heat stroke, 470
Thomas, J. E., 232, 470
Thompson, D. P., 538
Thyroid: measurements of osteoid tissue in primary hyperparathyroidism, 836
Thyroidectomy: Riedel's struma associated with fibrous mediastinitis, case, 375
Thyroiditis, lymphocytic (Hashimoto's), review of literature and report of case with; Ullrich-Turner syndrome in male, 843
Thyrotoxic and corticosteroid-induced myopathies, electron microscopic observations in, 785
Thyrotoxic and primary hypokalemic periodic paralyses, electron microscopic observations in, 797
Tissue, osteoid, in primary hyperparathyroidism, measurements of, 836
Titus, J. L., 186, 296
Todd, D. W., 672
Transplantation program, combined hemodialysis-renal, experience with; neurologic aspects, 809
Tuberculosis: coma and oliguria, case, 483
Tumors: beta-propiolactone as used in sterilization of homografts not carcinogenic for mice, 24
chemotherapy of malignant lesions unique in children, 361
hypoglycemia, 390
in vitro blood cell uptake of radioactive norepinephrine; experience in pheochromocytoma and idiopathic orthostatic hypotension, 649
intractable abdominal pain, case, 257
pathogenesis of Cushing's disease, 29
spontaneous regression of primary malignant melanoma with regional metastasis, case with photographic documentation, 672
Ullrich-Turner syndrome in male; review of literature and report of case with lymphocytic (Hashimoto's) thyroiditis, 843
Uremia: long-term intermittent hemodialysis for chronic renal failure, 73
Uric acid excretion in gouty and nongouty subjects, 326
Urinary tract infections, 33 years' perspective of, 536
Uterus: vesicouterine fistula, 150

Vagina: pediatric gynecology, 462
Valve, mitral or aortic, heart size after isolated replacement of, 217
Valves, atrioventricular, anatomic observations on complete form of persistent common atrioventricular canal with special reference to, 296
Valvular heart disease and hypohaptoglobinemia; association with hemolysis after insertion of valvular prostheses and in cases in which operation had not been performed, 657
Varicose veins, present-day indications for surgical treatment of, 515
Vascular complications: nonhereditary (secondary) diabetes mellitus, 560
Vascular coronary accident: headache and paresis, case, 114
Vasoactive polypeptides of surgical significance, 399
Vasodepressor lipid, renal, 433
Vasopressin: vasoactive polypeptides of surgical significance, 399
VDL: renal vasodepressor lipid, 433
Veins, varicose, present-day indications for surgical treatment of, 515
Velopharyngeal competence after primary repair of palate, evaluation of, 524
Veneziale, C. M., 657
Venous and arterial blood of bone in normal puppies and in puppies with arteriovenous fistula, measurement of oxygen saturation in, 95
Vertebral anomalies: duplications of small intestine in children; Mayo Clinic experience and review of literature, 246
Vesicouterine fistula, 150
Vincristine in treatment of acute leukemia, 383
Vitamin D-resistant rickets: morphologic evidence of osteomalacia in parathyroidectomized dog, 663

Wagoner, R. D., 73, 483
Waltz, A. G., 159
Ward, L. E., 326
Weed, L. A., 24
Wellman, W. E., 179
Whipple's triad: hypoglycemia, 390
Whole-body counter, Mayo Clinic, 18
Wilms' tumor: chemotherapy of malignant lesions unique in children, 361
Winkelmann, R. K., 334, 672
Wollaeger, E. E., 549
Woolner, L. B., 375

Zimon, R. P., 649
